Gentlemen & Ladies

I regards to this suet brought by the 10 +or - states about the way Microsoft runs its business, I think it's a terrible waste of government time and our tax dollars. I am 71 years old and have been a computer user for about 16 -18 years. I've owned 3 different PCs and they have all used MS operating systems. When I got the last one I decided to use E-mail and later to have an Internet connection. My E-mail goes through Juno.com and my Internet is through A T & T. I have had no trouble changing services. I changed from MSN to A T & T because it was less expensive.

I sincerely hope that this action can be terminated.
sincerely Glen S. Hawley
